

ESAKKIAMMAL P

Python Full Stack Developer · Django · FastAPI · React · Docker
Chennai · 9789264003 · esakkiammalesai23@gmail.com · [GitHub](#) · [LinkedIn](#)

PROFESSIONAL SUMMARY

Python Full Stack Developer with strong foundations in OOP, design patterns, REST API development, and database design. Hands-on experience building applications using Django, FastAPI, React, JWT, and Docker. Skilled in automated testing, code reviews, CI/CD pipelines, and writing clean, maintainable, testable code.

TECHNICAL SKILLS

Languages: Python, JavaScript, SQL, Bash
Backend: Django, Django REST Framework, FastAPI, REST APIs
Frontend: React, HTML5, CSS3
Database: MySQL, SQLAlchemy, Django ORM
Auth & Security: JWT, OAuth 2.0 Concepts, RBAC
DevOps: Docker, Linux, Git, GitHub, GitHub Actions, CI/CD
Testing: Pytest, Unittest, Django Test Framework
Cloud: Render, AWS Basics

PROJECTS

Inventory Management API | *FastAPI · PostgreSQL · SQLAlchemy · Docker · JWT · Pytest*

- Async REST API with FastAPI + SQLAlchemy/PostgreSQL — JWT auth, RBAC, Docker Compose containerization, and full Pytest coverage across auth, permissions, and CRUD endpoints.
- Implemented structured logging, centralized error handling, and Bash automation scripts for DB migrations, env setup, and deployment tasks.

Job Application Tracker API | *Django REST Framework · JWT · PostgreSQL · Docker · GitHub Actions · Render*

- Production-deployed API with JWT auth, RBAC (admin vs. applicant), 6+ endpoints, and django-filter for search/pagination — live on Render via GitHub Actions CI/CD pipeline.
- Containerized with Docker Compose; Pytest + Django Test Framework coverage across auth, permissions, and all API endpoints.

Student Attendance & Performance Tracker | *React · Django REST Framework · PostgreSQL · MySQL*

- Full-stack app — React frontend consuming 5+ DRF endpoints; normalized PostgreSQL/MySQL schema for students, courses, attendance, and grades across full CRUD operations.

AI-Powered Multilingual Coding Tutor (CodeMentor) | *React · Django · Groq API · Asyncio · [GitHub](#)*

- AI learning platform using asyncio-powered Groq API — weak-topic detection, anti-cheating assessments, gamification leaderboard, and automated email certification.

INTERNSHIP EXPERIENCE

Full Stack Developer Intern · TANSAM — TN Smart & Advanced Manufacturing Center *Feb 2025 – Mar 2026*

- Delivered end-to-end web module in a 1-month sprint — 100% of milestones met; designed relational data models in a production-grade Linux environment using systemctl, journalctl, and process monitoring tools.
- Participated in peer code reviews, identifying code quality, performance, and maintainability improvements before merge approval.

Full Stack Python Developer Intern · Ekaad Tech *Jun 2025 – Jul 2025*

- Contributed to 2+ live product features (React.js + Python) — code passed senior review and merged to main branch without rework on first submission.
- Participated in peer code reviews, identifying code quality, performance, and maintainability improvements before merge approval.

Python Developer Intern · Besant Technologies *Feb 3, 2026 – Jul 10, 2026*

- Completed 100% of structured Python curriculum (OOP, design patterns, file handling, scripting) — foundation applied across all subsequent projects.

EDUCATION

B.E. Computer Science & Engineering — CGPA: 8.2 / 10 · Annai Vailankanni College of Engineering, Anna University
2022 – 2026

ACHIEVEMENTS & CERTIFICATIONS

- 1st Place — Inter-College Quiz Competition, IoT & Software Club, Annai Vailankanni College of Engineering.
- Best Performer Award — Soft Skills Training, Mahindra Pride & Naandi Foundation.
- Mendix Rapid Developer Certified · Selected for 24-hour National Hackathon 2026 (Zia Edge) — built offline AI chatbot using RAG-based LLM under time pressure in a team environment.
